MONTHLY COMMENT

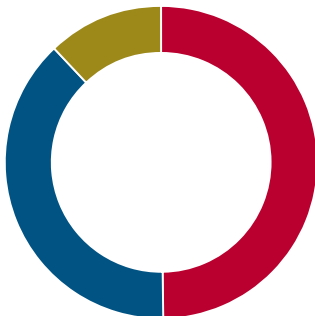

The Fund returned -1.4% in May versus the MSCI World Index of -5.2%. Rising trade tensions between the US and China sparked a selloff in global equity markets during May. Corporate bond performance was flat on the month. From a relative performance perspective, the Fund's bond portfolio underperformed its benchmark, the Bank of America AAA-A Euro Corporate Index, by 0.1% on the month but remains ahead by c. 0.5% YTD. The mild underperformance during May was primarily driven by a higher allocation towards As versus AAs. This was offset somewhat by the outperformance of recent additions to the Fund of KKR, Japan Tobacco and Philip Morris. Within Property, yields in all sectors remain relatively stable. Current asset breakdown is approx. 38% High Yield Equities, 50% Property and 12% Corporate Bonds.
